Policy and Market Developments

August 2016 Bank of England Policy Package

Policy Measure	Explanation at the time
25bp cut in Bank Rate to 0.25%	<ul style="list-style-type: none">The fall in sterling following the referendum was expected to push up on inflation but the outlook for growth was viewed as having weakened markedly.
Launch of new Term Funding Scheme	<ul style="list-style-type: none">To reinforce the transmission of the cut in Bank Rate.The value of lending in the TFS will be determined by usage of the scheme, and could reach around £100 billion.
£60bn expansion of gilt QE to £435bn	<ul style="list-style-type: none">To lower the cost of borrowing for households and companies, and by triggering portfolio rebalancing into other assets by sellers of gilts.
Up to £10bn of purchases of corporate bonds over 18 months	<ul style="list-style-type: none">The Bank will buy conventional sterling investment grade bonds issued by companies that make a material contribution to economic activity in the UK.To lower the yields on corporate bonds, thereby reducing the cost of borrowing for companies directly; by triggering portfolio rebalancing; and by stimulating new issuance of corporate bonds.The size of the market eligible for the CBPS is around £150 billion.Purchases representative of each sector's share within the list of eligible bonds.
